PROJECTS

ClassicDiscoveries | Full Stack

[Live](#) | [GitHub](#)

A single-page literary app inspired by GoodReads. Built using Ruby/Rails and React/Flux

- Securely protects user credentials through custom-built authentication system
- Stores image uploads in the cloud using AWS S3, allowing app to scale
- Implements flexible, reusable components for DRY, modular code

Falling Blocks | Front End

[Live](#) | [GitHub](#)

A browser game based on the classic Tetris, created using JavaScript, jQuery, and HTML

- Optimizes performance by selectively re-rendering only critical elements
- Saves high scores client-side using browser's local cache

Datafy | Back End

[GitHub](#)

A Ruby ORM inspired by ActiveRecord

- Allows joining of three+ tables using a convention over configuration approach
- Abstracts away database interaction by creating SQL queries based on input

EDUCATION

App Academy, New York, NY - *Web Development Bootcamp*

June 2016 - August 2016

- Rigorous course that requires 1000+ hours of work with < 3% acceptance rate
- Teaches full-stack web development using React.js, JavaScript, and Ruby on Rails with emphasis on best coding practices

The Pennsylvania State University, State College, PA - *BS Psychology*

August 2011 - May 2016

EXPERIENCE

Cozy Thai Bistro, State College, PA - *Supervisor*

January 2015 - June 2016

- Headed a team of 12 employees; coordinated employee schedules and facilitated a supportive, teamwork-oriented culture
- Implemented reward system to increase employee accountability by 10%

Penn State THON, State College, PA - *Committee Member '12-'15/Dancer '15-'16*

September 2012 - February 2016

- Organized fundraising trips to several major cities for 30+ people and raised nearly \$45k for pediatric cancer research including \$15k in one weekend
- Planned out a yearlong individual fundraising effort which raised over \$8k
