Ruby
Rails
JavaScript
React.js
Flux
HTML5
CSS3
SQL
Git
RSpec
jQuery

Projects

ClassicDiscoveries | Full Stack

[Live](#) | [GitHub](#)

A single-page online literary library app inspired by [GoodReads](#). Built with Ruby on Rails and React using Flux

- Optimized performance by reusing components to keep code DRY
- Stores image uploads in the cloud using AWS, allowing app to scale.
- Securely protects user through both frontend and backend validations using BCrypt

JavaScriptProject | Front End

[Live](#) | [GitHub](#)

A game or app made using only JavaScript

- Some stuff that it does
- Other cool features
- Hardships I had

Datafy | Code Intensive

[GitHub](#)

A Ruby ORM based on ActiveRecord using Ruby on Rails

- Library provides associations between models (belongs_to, has_many)
- Infers table names by default when making associations between classes

EXPERIENCE

Cozy Thai Bistro, State College, PA - Supervisor

January 2015 - June 2016

- Headed a team of 12 employees and created bi-weekly schedules
- Implemented reward system to decrease employee latency by 10%

Penn State THON, State College, PA - Committee Member '12-'15/Dancer '15-'16

September 2012 - February 2016

- THON is a year long fundraising effort that ends w/ a 46 hour no sitting/sleeping Dance Marathon in February, raises over \$10 million per year for pediatric cancer research
- Organized fundraising trips to several major cities w/ 30+ people and raised up to \$15k in one weekend
- Coordinated a year long, individual fundraising effort which raised over \$8k and danced in THON ([more info on THON](#))

EDUCATION

App Academy, New York, NY - Coding Bootcamp

June 2016 - August 2016

- Rigorous course that requires 1000+ hours of work with < 3% acceptance rate
- Teaches full-stack web development using React.js, JavaScript, and Ruby on Rails with emphasis on best coding practices

The Pennsylvania University, State College, PA - BS Psychology

August 2011 - May 2016
